Police Department Safety Plan Review for Alcohol Businesses or Extended Hours Licenses

All businesses licensed by the City of Minneapolis must provide adequate security to prevent criminal activity, loitering, lurking and disorderly conduct at their business, including parking areas, per MCO 259.250 (4). Additionally, all alcohol license holders must prevent negative secondary effects directly attributable to the existence of their business, per MCO 360.55.

Not providing adequate security to make your business safe could have an impact on the success of your business and your ability to continue to operate.

Adequate security is not "one size fits all". Even a well-vetted plan does not fit every circumstance. The following considerations and major components of a safety plan were developed in collaboration with successful business owners, the Minneapolis Police Department, the Office of Violence Prevention, and the Minnesota Licensed Beverage Association.

It is important that this review happens with the Minneapolis Police Department. Business owners meeting face to face with Police representatives is a way to develop a positive connection.

Business Safety Plan

Based on industry best practices, a successful business will have a safety plan that includes the following components:

A. Staffing and Procedures

Definition: Staffing for your business includes the following: Staff levels, different job titles and job expectations. This will include when the business is operating and closed. Please focus on staffing related to providing a safe environment for your customers, staff, and community.

- 1. Who will perform hiring? Will you perform criminal background checks to inform hiring decisions? Will each job have a detailed job description? Will staff, especially management, have experience in industry or training?
- 2. Will you have dedicated safety personnel? Will you hire contracted safety personnel? Or, will you have regular in-house staff perform safety duties? If so, what levels during the week and during the weekend? Will you change this during special events or when you increase your occupancy? Will safety personnel be recognizable/wear uniforms?
- 3. What will your scheduling plan look like? Will it differ from summer to winter? Will special events at the business or in the city impact your staffing numbers? Will there be managers and/or supervisors? Will you cross train your staff to perform many duties?
- 4. Duties: Inside the premises? Outside the premises? Frequency of rounds? How will you address loitering? Will you have dedicated parking lot security staff if you have a parking lot? Will you work with neighboring parking lots that your customers use? This can help ensure safety.
- 5. Security Philosophy of Respectful Enforcement considerations: Will you offer regular de-escalation training? What procedures will you follow if it is necessary to escort a patron from the premises? Will your staff work in teams? **Please note that if you hire an outside professional security company, they must be licensed by the Minnesota Board of Private Detective and Protective Agent Services.
- 6. Incident Logs: How will you communicate policies, incidents, and updates to employees?
- 7. Do you plan to create a No Admittance List? Who has the responsibility for managing the list? What will be your criteria for adding or removing someone? Will you share this list with Business Licensing?
- 8. Add to your plan how your business will follow Hennepin County curfew times.

B. Exit Strategies

Definition: How you will move customers out of and away from your business before the time you can no longer have them there? This could be 1:30am, 2:30am, or the time your conditions need you to close.

- 1. Before closing time: Will you inform customers in advance? Alter lights and/or music? At what time will you stop alcohol and/or food service?
- 2. Closing Time: Will you provide escorts for customers and/or staff? Will you be monitoring your parking lot for illegal activities and/or disturbances? Will your business take part in traffic management?
- 3. Will you use valet services? Contracted or in-house? Make sure your safety plan includes protecting customers during high volume closing times. In some busy areas of the city, grid-lock can occur at closing time. This could be due to your valet service. How will you work with neighbors to assure access and safety for the neighborhood?
- 4. What are your plans for an emergency evacuation, sheltering in place, and an active shooter?

- 2. Having video surveillance can help protect your business from crime. It can also help support Police investigating crimes that may happen there or nearby. What video surveillance will your business provide?
