The manufacturer's published installation instructions and the current ICC-ES evaluation report shall be attached to this form and **available on the jobsite at all times during installation and inspection.**

Materials shall be identified in a manner that will allow a determination of compliance with the applicable provisions of the building code. Materials used shall be:

- (1) listed for the intended use;
- (2) installed in accordance with the manufacturer's installation instructions; and
- (3) installed by an installer who is certified by the manufacturer to install that specific product, if such certification exists. (1322.R303)

Thermal insulation shall comply with Minnesota Rules, Chapter 7640, Minnesota Thermal Insulation Standards, adopted by the Department of Commerce. (1322.R303.1.5)
