

BASEMENT WALL FINISH

Minneapolis Construction Code Services
Informational Bulletin

Revised January 2009

This detail is a summary version of the recommended method of insulating an existing basement from the Minnesota Department of Commerce/State Energy Office. It is advised you obtain a full version discussion of the "Basement Insulation" bulleting prior to any work. Contact the State at (651) 296-5175 or visit the State's website: www.commerce.state.mn.us and click on "Energy Info. Center. Correction of any moisture and mold concerns should be addressed prior to any basement level finishes.

The illustration shown is representative of an alternative basement wall finish. Correction of any moisture and mold concerns should be addressed prior to any basement level finishes. Other alternative finishes may be submitted.
