

Boulevard Maintenance Responsibility

Our Green Stormwater Infrastructure (GSI) includes rain garden basins and connected upland areas but does not include boulevards. Remaining boulevard areas between the street and sidewalk that are not mulched and planted will not be maintained.

Restored rain garden basin

Unrestored rain garden basin,
will be restored by City

Maintained boulevard,
responsibility of adjacent
property owner

Unmaintained boulevard,
responsibility of adjacent
property owner

Allowed in the boulevard without a permit:

- Sod
- Flowers
- Native grasses

All vegetation must be less than 36" and less than 18" tall if within 20 feet of an intersection, alley, or driveway.
