Project Information

<http://www.minneapolismn.gov/publicworks/HiawathaCampusExpansion>

The screenshot displays the Minneapolis Public Works website. The header features a navigation bar with links for City Services, Residents, Business, Government, Visitors, and Contact 311. A search bar and a dropdown menu for DEPARTMENTS/DIVISIONS are also present. The main content area is titled "Hiawatha Campus Expansion Project" and provides information about the project's purpose, the City Council's approval, and the acquisition of the Roof Depot site. It also includes a list of links for public participation, such as the Site Development Guidelines Advisory Committee (GAC) meetings and the Roof Depot property site studies. A sidebar on the left lists various public works services, including Fun Facts, Job Opportunities, Quick Links, Salvaged Paving Bricks/Stones, Traffic Count Management System, ACCESS Minneapolis, ADA Transition, Bicycling, Capital Improvement Projects, Green Pages, Interns, Parking, Peavey Plaza, Pedestrian Program, Permits, Safe Routes for Youth and Seniors, Sewer and Storm Drains, Sidewalk Inspections, Solid Waste and Recycling, Standard Specifications & Detail Plates, Storm and Surface Water Management, Street Furniture Program, Street Lighting Policy and Information, Street Sweeping, Traffic, Transportation, Transportation Engineering & Design, Transportation Planning & Programming, Utility Billing, and Water Department.

Hiawatha Campus Expansion Project

The Hiawatha Campus expansion will allow the City to relocate and consolidate the Public Works Water Distribution Maintenance operation. The consolidation will make operations more efficient and improve service.

The City Council approved [acquisition](#) of the Roof Depot properties in the East Phillips neighborhood Feb. 22, 2016. The Council also directed staff to redevelop the site following the Leadership in Energy and Environmental Design (LEED) Gold level of quality.

On June 19, 2015, the Council [authorized](#) City staff to negotiate with the owner of the Roof Depot site for the acquisition of property to allow for the campus expansion. The Council also directed staff to work with community members to identify redevelopment or leasing scenarios for the portion of the property not required for municipal operations.

For questions about the expansion project, contact Bob Friddle at Bob.Friddle@minneapolismn.gov
