City of Minneapolis 2021 Recommended Budget

Financial Overview

The 2021 Mayor's Recommended Budget for all City funds is \$1.47 billion. This represents an \$93.9 million, or 6.0 percent decrease from the 2020 Council Adopted Budget of \$1.37 billion exclusive of the City's component units. At the same time, the Mayor recommends an overall increase of 5.75 percent in the property tax levy for the City and its component units (including their respective requests for funding their own budgets), raising the total amount levied by \$21.5 million, from \$374.3 million in 2020 to \$395.8 million in 2021. This budget also utilizes accumulated fund balances to fund budgetary items that are one-time or short-term in nature to mitigate budgetary fluctuations and to avoid volatile property tax levies which place undue burden on property taxpayers. The City's financial position is challenged in 2021 due to anticipated continued depression in local sales and entertainment taxes and other revenues due to the effects of the COVID-19 Pandemic. The Financial Overview is presented without transfers to avoid double counting of resources. Transfers have also been removed from charts and graphs within this section, including totals for comparative prior years, unless otherwise noted.

Major Highlights

The 2021 Mayor's Recommended includes significant proposals to address future financial and operating challenges. It is important to be aware of these initiatives when making comparisons between budget years, and to understand the context in which these decisions were made.

Cities across the country are grappling with the dual public health and public finance crises presented by COVID-19. Like our peers, Minneapolis has put necessary and prudent social distancing measures in place to stop or slow the spread of the virus, and protect the most vulnerable in our city. These restrictions are not without loss, however. 2020 alone saw a projected \$156 million revenue shortfall, and it is clear those revenues will not be bouncing back immediately in 2021.

The 2021 budget assumes a recovery throughout the year, with restrictions fully easing by year end. This will allow local sales and entertainment tax receipts -- the City revenues hit hardest by the current recession -- to recover gradually as well. In a typical year over \$32 million of local sales and entertainment taxes are transferred in to the City's General Fund to support economic development and general government services. Because of the precipitous loss on receipts, fully \$22 million of that transfer will not take place in 2021. That revenue loss, combined with a drop of over 5% in Local Government Aid from the State of Minnesota created a \$26 million challenge to be addressed in the General Fund.

The 2021 - 2025 Five Year Financial Direction adopted by the City Council last December included an assumed 6.11% levy increase for this year. All departments are seeing cuts to current service levels, and the property tax levy is set to increase by 5.75% in order to balance against the losses described above.

In addition, the Mayor is recommending Council adopt an early retirement incentive program to help balance our budget, service levels, and workforce over the long-run. Rather than cutting positions in the immediate -- which would mean job losses for the newest City hires, the early retirement incentive aims to help older City workers get a start on their retirement plans in advance. These departures will create the space for Departments to thoughtfully reexamine their operations and their organizational charts, and ultimately match staffing needs with service needs in order to continue to provide excellent services at a lower cost.

At the same time, our city continues to grow, and in an economic downturn residents rely on City services more than before. As a result this budget includes investments in new programming related to public safety, affordable housing, and economic inclusion. Specific investments are listed in the Major Changes table later in this section and described in detail in Change Item narrative pages included in the Operating Departments section of this book.

City Spending

For 2021, the budget includes expenditure appropriations corresponding to priorities outlined in the Mayor's Recommended Budget as well as ongoing projects and current City-provided services. Details of the individual expenditure appropriations within the departments and other categories identified in the pie chart below are available in the Operating Departments and Capital Programs sections of this document.

Below is a summary of the 2021 Mayor's Recommended Budget by departmental activity, excluding transfers.

City Sources of Revenue

For 2021, the City forecasts \$1.4 billion in revenue from a variety of sources. Many of the City's revenue sources are restricted, meaning they are required to be spent in defined areas or on specific programs or projects. These restrictions limit the City's ability to raise additional funds and to apply the revenue to other departments or programs. For example, the City charges fees for services such as water, sewer and trash pickup, but State law requires that these fees be no higher than the cost of providing the services, including both operating and capital costs. Because these revenues are restricted, the City cannot raise water bills to pay for citywide police services.

Grants and allocations from the Federal Government and other units of government are usually designated for specific needs and purposes. If the City does not spend these resources for their designated purpose, the City will not receive the grants. Bond proceeds must go to purposes for which the debt was incurred. Like many Minnesota cities, Minneapolis pays for core City services (police, fire, streets, parks, etc.) primarily with property taxes and LGA, as well as other general governmental revenues such as licenses and permits as well as fees and interest income.

Total Revenue Budget - Source of Funds 2021 Mayor's Recommended Budget: \$1.4 Billion

Local Government Aid (LGA)

Following several years of uncertainty in funding from the State of Minnesota in the form of LGA, including the loss of over \$70 million from 2008-2011, the State has made slight annual increases to the amount of LGA appropriated to the City of Minneapolis from \$76.1 million in 2014 to a certified amount of \$68.8 million in 2020. Of this amount, the City plans to allocate \$68.1 million for its General Fund, \$9.2 million to the Park Board, and the remaining \$0.2 million to the Municipal Building Commission (MBC). The table below shows the historical certified and actual LGA amounts, as well as the certified LGA levels for 2021 based on current law.

Budget by Fund

The City uses different funds to account for expense and revenue associated with the various services provided. The **General Fund**, where the City accounts for most property tax supported services, represents 33 percent of the 2021 Mayor's Recommended Budget, an increase from 31.8 percent in the 2020 budget.

Special Revenue Funds are used for personnel costs, operating costs, contractual services and equipment that are funded by specific revenue sources. Special revenue funds support the convention center, health and family support, public safety, Federal, State and local grants and ongoing support of closed pension funds.

Capital Project Funds include permanent improvement and arbitrage funds and are used for the construction of infrastructure projects.

Debt Service Funds are used to pay interest and principal on City debt.

Internal Services Funds are used to account for business-like services that the City provides to other City departments. Internal services include information technology, equipment (e.g. police squad cars, fire equipment, and other rolling stock), property services, tort claims, and workers compensation claims.

Enterprise Funds include services that the City provides that operate like a “business” - similar to internal service funds but with external customers. Charges for services are expected to recover operating costs, indirect costs, capital investments, and interest expense. Utility rates are set with the intent of funding these costs. Enterprise services of the City include sanitary sewer services, storm water management and flood mitigation, water treatment and distribution, solid waste and recycling, and parking.

More details regarding the Mayor's Recommended Six-Year-Capital Program will be available in mid-October.

Funding for Pension Liabilities

The City's property tax levies for its former closed pension funds that have been merged into the Minnesota State Public Employees' Retirement Association (PERA) for 2021 total \$14.8 million, held constant from the 2020 adopted budget. This constant payment is reflective of State action in the 2019 legislative session to restore the MERF funding deal. The three merged funds include:

- The Minneapolis Employee's Retirement Fund (MERF) Division of PERA – fully merged in 2015.
- The Former Minneapolis Police Relief Association (MPRA), a closed fund.
- The Former Minneapolis Fire Relief Association (MFRA), a closed fund.

Teacher's Retirement Association (TRA)

The 2006 Legislative session combined the Minneapolis Teachers Retirement Fund Association (MTRA) with the State's Teachers Retirement Association (TRA). As part of the legislation, the City was required to redirect its annual \$2.25 million MTRA tax levy to TRA through 2037. State law changed the \$2.25 million City levy to a \$2.25 million contribution in 2012. This change increased the total levy for this purpose as the City previously contributed its net TRA levy collection, which was less than \$2.25 million because the City does not collect 100 percent its levy. For 2020, the City will levy \$2.3 million for TRA to insure that net collections provide the \$2.25 million. For the purpose of long-term planning, it is anticipated that these costs will remain constant and end by 2040.

Public Employees Retirement Association (PERA), the plan for most current City employees:

The employers' contribution level in PERA's Coordinated Plan for 2021 is 7.5 percent, and the PERA's Police and Fire Plans' employer's contribution remains at 16.95 percent, both same as in 2020. The estimated total cost of contributions to PERA for the City exclusive of its independent boards for 2021 is \$35.5 million, which is covered in the budgets of the departments in which the employees work.

| | 2020 | 2021 | Change |
|--------------------|----------------|----------------|-----------------|
| | (in millions) | | |
| PERA | \$ 16.6 | \$ 15.5 | \$ (1.1) |
| PERA Police & Fire | \$ 22.3 | \$ 20 | \$ (2.3) |
| Total | \$ 38.9 | \$ 35.5 | \$ (3.4) |

Funding for Internal Services Funds' Long-Term Financial Plans

During the 1990s, external demands negatively impacted the ability for revenue to support the City's internal services to keep pace with the growth in expenditures. Significant negative cash balances resulted because annual expenses exceeded revenues. By the year 2000, the combined net asset deficit in the Self Insurance, Equipment, and Intergovernmental Services Funds was \$61.7 million. To correct these deficits, the City adopted long-term financial plans between 2000 and 2004 that called for the Self-Insurance, Equipment, Intergovernmental Services, as well as the Property Services internal service funds to rely on transfers from the General Fund through 2019 to eliminate deficits. Fortunately, due to efforts in recent budget cycles, 2014 was the final year of these transfers. The elimination of this obligation will allow General Fund resources to be redeployed to other purposes in future years.

Growth in Personnel Costs

Personnel Changes. The 2021 Mayor's Recommended Budget decreases the Full-Time Equivalent (FTE) count of City positions by 335.2 from the 2020 Current Service Level, exclusive of the City's independent boards, from 4,273.6 to 3,938.4 FTEs. Notably, 325.2 of the total positions reduced are not eliminated, but subject to a hiring freeze for 2021. Departments are reviewing opportunities for reorganization and some of those positions may be eliminated in a future year budget, but for the purpose of setting the 2022 current service level they will be considered part of the base budget.

Salary and Wages. The 2021 Mayor's Recommended Budget includes an decrease in personnel expenditures (\$338.1 million in salaries and wages, compared to a 2020 total of \$413.4 million), excluding the City's independent boards.

Benefits. Health and dental insurance expenditures are budgeted to decrease from \$67 million in 2020 to \$59.4 million in 2021, exclusive of the City's independent boards. This is a decrease of \$7.6 million or 11.4 percent due to projected better medical insurance rates.

Property Tax Revenue

The Mayor's 2021 Recommended Budget includes an overall property tax levy of \$395.8 million. This levy reflects the combined total for the City, the Minneapolis Park and Recreation Board, and the Municipal Building Commission (MBC) levies, as well as the Library referendum levy which is a \$10.3 million market value based tax levy. The 2021 recommended levy is \$21.5 million more than the 2020 Council Adopted levy of \$374.3 million.

Property Tax by Entity - \$395.8 Million

Historical Property Tax Revenue by Year

Property Taxes on Individual Properties

Several factors beyond the change in amount levied affect the annual change in property tax owed on a particular property. These factors include the tax base composition within property classifications, the tax rate of the jurisdiction, growth or decline in the value of other properties within the jurisdiction, properties placed in tax increment financing districts, improvements to a property, as well as other factors. Each of these variables may change on a yearly basis, occasionally resulting in sizable changes in the amounts of property taxes assessed to any one property.
