

Stakeholder Meeting

28th Avenue Bridge
over Minnehaha
Creek

April 24, 2020

Background

- This project began in 2015 due to concerns about the condition of the 1904 concrete arch bridge.
- Stakeholder input informed design decisions.
- An Alternatives Analysis resulted in a decision to replace the bridge.

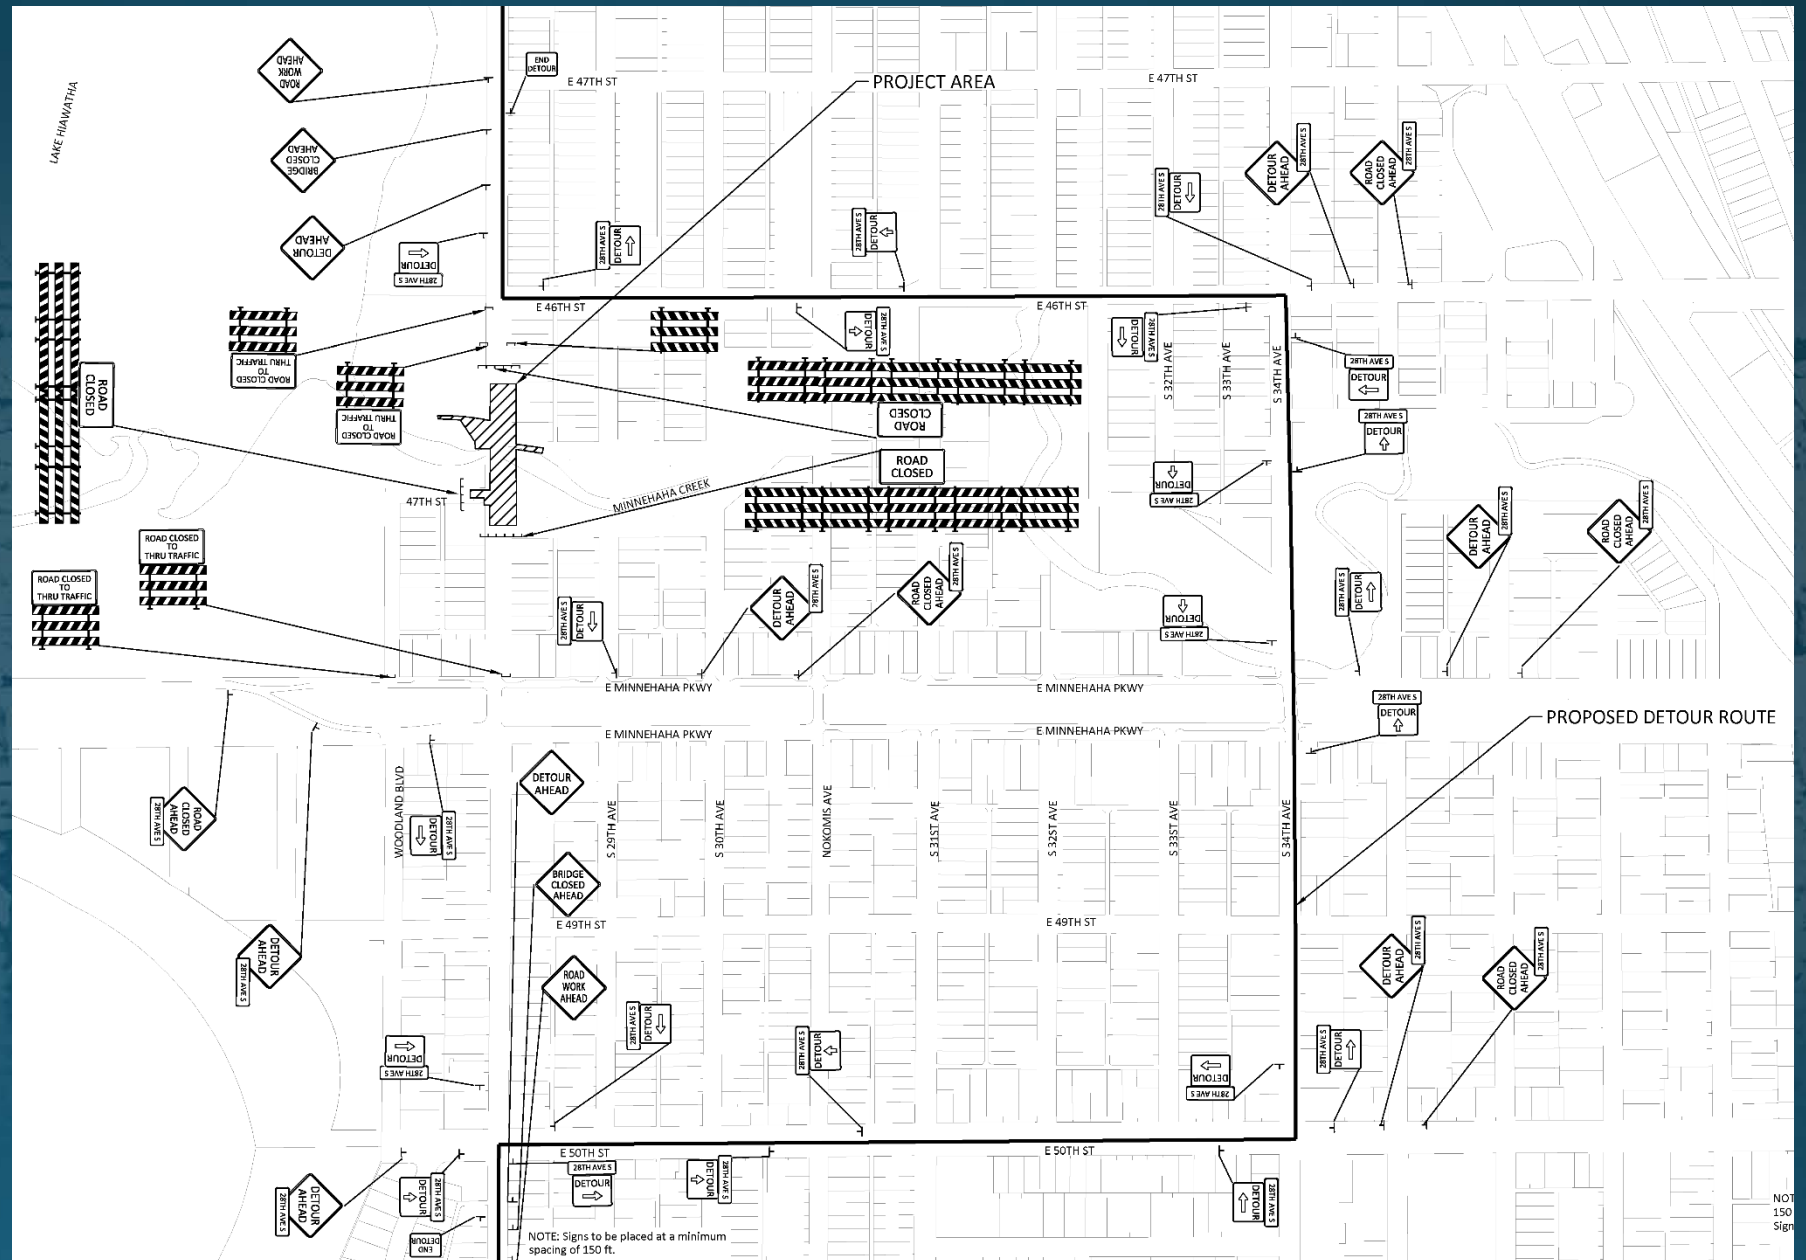

Bridge Replacement

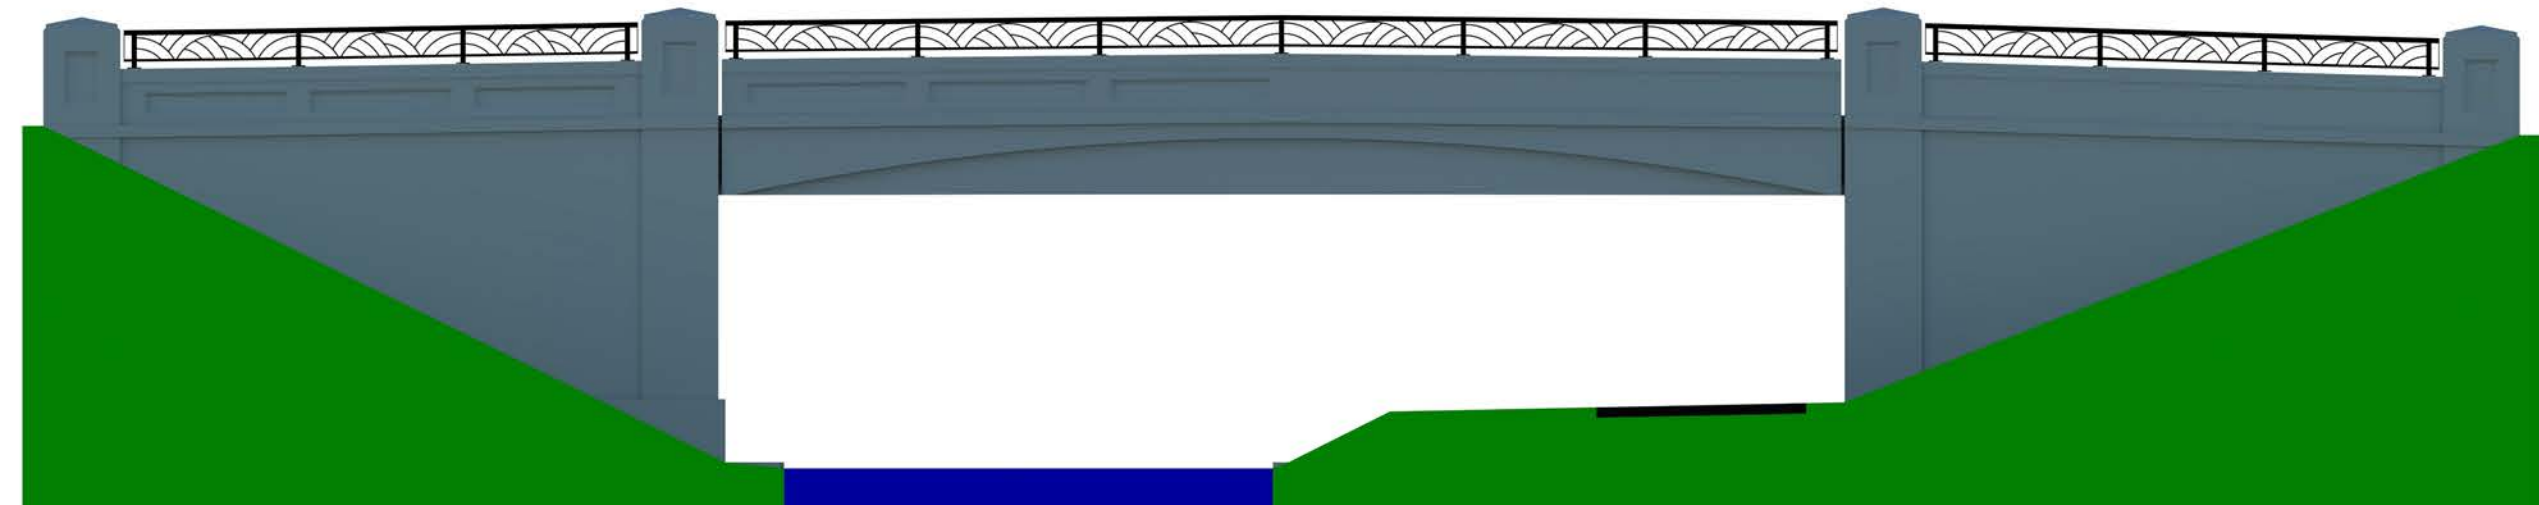

Detours

- Auto, ped/bike, and creek closures.
- Note auto route is NOT on Minnehaha Parkway

Project Schedule – Anticipated Opening Date – Late June

- Concrete sidewalks, concrete and steel railings
- Concrete surface treatment
- Roadway restoration and trail completion
- Lighting
- Site Restoration
